🌐 LANGUAGES

- English
- Japanese

🧠 SKILLS

ruby • ruby on rails • javascript • CSS • HTML • Version control systems: git, github

🎓 EDUCATION

Bachelor of Science: Business Economics

Tokyo International University

03/2016 – 03/2020 | saitama, Japan

fullstack development

Le wagon Tokyo

Tokyo, Japan

An intensive coding bootcamp where we learn all the necessary tools to be a fullstack developer

📄 CERTIFICATES

Introduction to VueJS Framework

Issued by Codio

Introduction to Front-End Development

Issued by meta on coursera

Programming with Google Go

Issued by University of California, Irvine

👤 PROFILE

I began studying programming through online courses, earning multiple Coursera certificates and applying what I learned by building my own web applications. To deepen my skills, I completed the Le Wagon full-stack bootcamp, gaining hands-on experience in **Ruby**, **Ruby on Rails**, **HTML**, **CSS**, **JavaScript**, and **Python**. I've built multiple full-stack projects both during and outside of the bootcamp, and I'm now excited to apply my technical skills and problem-solving mindset as a junior developer and grow in the tech industry.

📁 PROJECTS

debatify

Ruby on Rails, JavaScript, PostgreSQL, ActionCable

A dynamic platform enabling users to engage in structured debates on various topics. Built by my team during my time in Bootcamp

- Implemented real-time debate sessions using ActionCable.
- Designed user authentication and profile management systems.

Air friends

Ruby on Rails, PostgreSQL, JavaScript

A community-driven accommodation-sharing platform. Built by my team during my time in Bootcamp

- Integrated user authentication and booking functionalities.
- Created a responsive UI with Bootstrap.

Job-tracker

Ruby on Rails, PostgreSQL, JavaScript

Built a tool to help users log and track job applications, with filtering and sorting features for efficient job search management.

- Allows users to log job applications and track their progress.
- Features filtering and sorting options for better organization.

💼 PROFESSIONAL EXPERIENCE

Self-Directed Study, Full-Stack Development

03/2024 – 10/2024

- Completed multiple Coursera certificates in web development and programming fundamentals
- Built several personal web applications to apply and reinforce newly learned skills
- Studied core technologies including Ruby, Ruby on Rails, HTML, CSS, JavaScript, and Python
- Developed a strong foundation in front-end and back-end development through hands-on projects

Borderlink

Assistant Language Teacher

04/2020 – 03/2023 | Tokyo, Japan

- Designed worksheets and games adopted by other teachers to boost student engagement.
- Led an after-school English club, increasing participation with interest-based activities.
- Supported test administration and grading to improve feedback speed.
- Coached students for speech contests, contributing to winning performances.

Self-employed

Private English Teacher

10/2019 – 12/2021 | tokyo, japan

- Designed tailored lesson plans to meet individual learning
- Secured suitable rental spaces for lessons and managed logistical arrangements.
- helped with multiple students pass English exams.
